Biography

Eda Boyacıoğlu Kaçar is an attorney in the Türkiye team, advising broker and policyholder clients on insurance, commercial, regulatory and contractual matters. Her practice focuses on insurance-related advisory work, contract and document management, regulatory compliance, policy and endorsement review, risk transfer, and the legal aspects of claims and dispute management.

She brings experience from in-house legal role. Before joining, she worked as Attorney at Law at STFA Construction Group.

Eda Boyacıoğlu Kaçar supports clients across contentious and non-contentious matters, combining practical commercial insight with careful legal analysis. Her work includes advising on coverage issues, claims strategy, contractual risk allocation, regulatory requirements, corporate governance, and dispute resolution, with sector experience spanning insurance, construction, infrastructure, energy and wider commercial operations.

Her current advisory work is closely linked with broker support and policyholder-focused services, including guidance on policy language, placement and client-facing documentation, insurance program documentation, coverage analysis, regulatory developments, and practical legal support for brokers and their clients.

Education

Marmara University (LL.B) 2003 – 2008
Üsküdar American Academy, 1997–2003.

Memberships and Affiliations

Istanbul Bar Association

Experience

Eda Boyacıoğlu Kaçar advises insurance brokers, policyholders and corporate clients on insurance-related contract and document management, regulatory compliance, coverage analysis, policy and endorsement review, claims strategy, risk transfer and commercial legal matters. She supports clients in reviewing and managing insurance program documentation, contractual risk allocation, broker-client documentation, and regulatory considerations affecting insurance arrangements. Her experience also includes construction and infrastructure projects, energy-law related matters, arbitration and alternative dispute resolution, and corporate governance issues.
